

FOR IMMEDIATE RELEASE

Staroba Plastics honored by Occupational Services, Inc.
Company honored for long-standing working relationship

HOLLAND, NY (May 23, 2013) - Staroba Plastics, the manufacturer of EcoStar synthetic roofing tiles, was recently honored by Occupational Services, Inc. with an award "For Providing Increased Business Opportunities To Persons With Disabilities."

"We choose one business each year that stands out for their tremendous support of our clients and the business they provide to OSI," said Kandi Kirchner, Production Manager at OSI. "[EcoStar] has constantly provided OSI with some of the best work for our clients and they love to assemble the sample boards for EcoStar."

EcoStar has a long-standing relationship with OSI for the assembly of sample boards for its four lines of synthetic slate and shake roofing tiles. Kathy Spaulding, customer service manager for EcoStar, accepted the award on behalf of Staroba Plastics at the OSI awards banquet held in Chambersburg, Pennsylvania.

Occupational Services, Inc. (OSI) was established in 1957 with the mission of providing a variety of subcontracting services as meaningful and dignified employment for individuals with disabilities. For more information on the services offered by OSI can be found at their website, <http://www.osinc.org/>.

About EcoStar LLC

EcoStar LLC has been the leader in the manufacture of premium synthetic steep-slope solutions for the roofing industry since 1993. EcoStar offers a full line of synthetic slate, shake and designer tiles that offer exceptional longevity, durability and aesthetics.
