The Staroba Group Celebrates 5 Years of No Lost Time
Manufacturer of EcoStar roofing tiles marks safety milestone

HOLLAND, NY (November 30, 2015) – The Staroba Group, home of EcoStar LLC, is proud to announce the achievement of reaching over 1,825 days of no lost time from work. The milestone marks five years of production at the plastics manufacturing facility in Western New York without an OSHA recordable safety incident resulting in lost time from work.

“This accomplishment is something we are really proud of and it’s a tribute to the efforts of all of our employees,” said Barbara Staroba, President of the Staroba Group, “the dedication of our safety committee and all of our staff to promote and maintain a safe work environment has been vital to our mission to create high quality products.”

The Staroba Group is comprised of four companies located in Holland, New York that include: Staroba Plastics, K & M Custom Mold and Machining, Buffalo Polymer Processors and EcoStar LLC.

About EcoStar LLC

EcoStar LLC has been the leader in the manufacture of premium synthetic steep-slope solutions for the roofing industry since 1993. EcoStar offers a full line of synthetic slate, shake and designer tiles that offer exceptional longevity, durability and aesthetics.
