EcoStar[™]
CARLISLE

EcoStar

EcoStar®, a division of Carlisle Construction Materials, leads the industry with its premium, steep-slope manufactured slate and shake roofing tiles. EcoStar products exceed quality standards in the roofing industry and are the responsible choice for contractors, specifiers, architects and property owners.

Dedication

Dedicated to using existing materials, EcoStar roofing tiles are made up of 80% recycled compound that includes rubber and plastic polymers. The materials used to produce EcoStar tiles are pulled from the post-industrial waste streams generated by various manufacturing markets.

The production of EcoStar tiles diverts millions of pounds of scrap rubber and plastic from the nation's landfills annually.

Preservation

Utilizing EcoStar products preserves valuable natural resources. No trees are used and no stones are quarried to create EcoStar's Seneca Cedar Shake Tiles™ and Majestic Slate™ tiles. Durable and easy to maintain, EcoStar roofing tiles are long-lasting and are offered with a 50-year warranty.
